

Strike

Strike Hunter

Quick, maneuverable, and hard hitting. The TimberHawk Strike Hunter, available in 54" and 60" is right at home in the thickest eastern timber. To the steepest most remote mountain ridge in the west.

Featuring a riser of either exotic Shedua or Bubinga . And Maple Actionwood limb cores with your choice of black or brown Gordon glass.

Strike Premier

The TimberHawk Strike Premier takes all the attributes of the Strike Hunter, then turn it into the custom bow of your dreams.

The three piece riser features a bold flared wedge with your choice of a wide range of exotic or domestic woods.

The limbs are maple Actionwood with a large variety of in stock veneers, and clear Gordon glass to show off the wood grain underneath. Available in 54" or 60".

Mission Statement

1 Corinthians 10:31 says do everything as if for the Lord. I will strive to do that with every bow I build. Isaiah 55:11 says that Gods Word always accomplishes its intended work. Each TimberHawk bow has a scripture reference written on it. It is my prayer this seed will lead someone to the Savior.

Mar 24, 2021, Rev A

If you are looking for a bow that has the stability and speed of a recurve, with the quick handling agility of a longbow, then the "Odyssey" is your bow. The Odyssey is a reflex/deflex design while still retaining the classic "D" shape when strung. Available in 60", 62" and 64" lengths and weights to 65#. Whether you prefer the basic no frills "Hunter" or the more beautiful than it needs to be "Premier", the Odyssey will not disappoint.
